DESCRIPTION OF SEMINAR COURSES

Minnesota - Individual presentation and class discussion of (a) studies completed by class members, (b) contemporary problems selected by class members, and (c) National Conference Reports.

Purdue - Research techniques and literature bearing on the educational objectives of physical education.

Texas - Guidance in the selection of topics for research and in the procedures for their presentation.

Illinois - Lectures, discussions, and critiques on physical education, kinesitherapy, recreation, sports, camping, outdoor education, and related subjects by faculty members and visiting professional leaders. Presentation of theses by students.

New York University - Designed to integrate developments in general education with those in various phases of specialization in physical education, health, and recreation. Conducted on the problem project basis and is broadly conceived. Basic literature for the course includes recent developments in education and the literature in specialization according to the curriculum selection of the student.

Columbia - Designed to prepare candidates for the Ph.D. or Ed.D. for the Advanced School Seminar and oral examination. Provides opportunity for critical discussion, appraisal, and approval of proposed projects and researches.

Indiana - Individual and group study of problems arising in the field of physical education.
